Response from BP America and affiliated entities to Order No., R4-2016-0021 – Order to Submit Information – The Disposal of Well Drilling Fluids, Well Completion Fluids, and Production Fluids to Land for BP America Inc. Oil and Gas Operations in Los Angeles and Ventura County, California.

Dear Mr. Cwikla:

To prepare a response to the above referenced order, I requested a review of the records of BP America Inc. subsidiary and affiliated business entities. Historically, some BP America Inc. affiliated entities such as the Atlantic Richfield Company did own production assets in California Division of Oil, Gas and Geothermal Resources (DOGGR) Districts One and Two. However, those assets were divested many years ago. We do not currently own or operate any active oil and / or gas production facilities, disposing of production fluids, in DOGGR Districts One or Two.

We suspect that database errors or errors in the recording of transfers of ownership may explain why BP America Inc. or BP America Inc. affiliated entities appeared in your search of affected entities. We will be investigating that possibility to the extent we can.

Please feel free to contact me if you have any questions about this response or require additional information.

Sincerely,

Nathan Block
